Sahla Hassan

Junior Cybersecurity Analyst | SOC, DFIR & GRC

hsahla788@gmail.com +966 543091041 Makkah, Saudi Arabia linkedin.com/in/sahla-hassan

Summary

Information Systems graduate from Umm Al-Qura University. Certified Digital Forensics Professional (eCDFP – INE). Graduated with a 100% grade (A+) from Tuwaiq Academy's Advanced Cybercrime & Digital Forensic Investigation Bootcamp. Hands-on experience in SOC monitoring and detection using Wazuh and MITRE ATT&CK, with a background in GRC and the NCA Essential Cybersecurity Controls. Seeking a SOC Analyst or Digital Forensics role.

Cybersecurity Experience

Cybersecurity Intern, *Holy Makkah Municipality* 03/2023 – 05/2023
Makkah, Saudi Arabia

- Assessed ICS/OT network segmentation and access controls against NCA Essential Cybersecurity Controls (ECC), documenting findings by confidence level (High/Medium/Low) to support remediation prioritization.
- Applied CIA triad principles (confidentiality, integrity, availability) while contributing to GRC policy development.

Education

Advanced Cybercrime & Digital Forensic Investigation Bootcamp, *Tuwaiq Academy* 06/2026 – 08/2026
Riyadh

- Completed with a 100% overall grade (A+).
- Hands-on training in digital forensics and incident response across computers, mobile devices, and networks: forensic imaging, chain of custody, memory forensics, and Windows event log analysis.
- Applied detection and analysis skills using Wireshark and Wazuh.

Bachelor of Information Systems, *Umm Al-Qura University* 09/2019 – 05/2023
Makkah, Saudi Arabia
Coursework: Information Systems Security, Systems & Networks Management, Business Process Design, Project Management.

Projects

Wazuh SOC Detection Lab, *Tuwaiq Academy* 2026

- Deployed Wazuh SIEM across a 3-node environment (user endpoint, attacker machine, target server).
- Wrote 20 custom detection rules mapped to MITRE ATT&CK techniques across a full attack chain.
- Implemented a Honeytoken to detect unauthorized access attempts.

Rasd (Communications Data Investigation Platform), *Tuwaiq Academy* 2026

- Team project (3 members): platform for investigating Call Detail Records (CDR) to track events and link related activities.
- Led the DFIR, Security, and Reporting track: evidence acquisition, hashing, chain of custody, and investigation reports.
- Stack: Python, FastAPI, PostgreSQL, Neo4j, React/TypeScript.

Smart Lockers, *Umm Al-Qura University*
Graduation project: locker reservation app with secure, barcode-based access control generating a unique one-time password per transaction.

Other Experience

Administrative Organization Specialist, Tamheer (HRDF) Program 12/2023 – 06/2024
Maternity and Children Hospital
Makkah, Saudi Arabia

- Coordinated internal communications, meeting and presentation materials, and scheduling; organized departmental records and documentation.

Certifications

eCDFP (Certified Digital Forensics Professional)
INE, October 2026

Certified Junior Consultant (GMCI-CJC)
Global Management Consulting Institute, January 2026

Skills

SIEM & Detection: Wazuh, Sysmon, MITRE ATT&CK, Log Analysis, Threat Intelligence
Digital Forensics & IR: FTK Imager, Memory Forensics, Chain of Custody, Windows Event Log Analysis
Network Security: Wireshark, ICS/OT Security
GRC: NCA Essential Cybersecurity Controls (ECC), CIA Triad
Threat Intel Platforms: MISP, TheHive
Programming & Data: Python, SQL, Power BI
Languages: Arabic (Native), English
